

Starter Managed Website

A professional one-page website for small businesses that need to get online quickly — without managing hosting, DNS, SSL, or technical maintenance.

\$299 setup
+ \$49.99 / month

Managed hosting, basic monitoring, and one small update per month.

Included in the \$299 setup

- ✓ 1-page landing page or small brochure-style website
- ✓ Mobile-friendly layout for desktop and mobile
- ✓ Contact section or basic contact form
- ✓ Static website deployment to a reliable hosting platform
- ✓ Domain registration assistance or domain connection
- ✓ DNS configuration, redirects, and HTTPS/SSL setup
- ✓ Basic SEO: title, metadata, favicon, sitemap, indexing
- ✓ Google Business Profile update — add **NEW** new website to your Google Maps listing

Included in the monthly service

- ✓ Managed static hosting and platform administration
- ✓ DNS and SSL checks for basic technical health
- ✓ 1 small update / month: text, image, contact info, hours, or links
- ✓ Basic uptime verification
- ✓ Email support for website-related questions

Maintenance scope

New pages, redesigns, custom integrations, advanced SEO, branding, and copywriting are quoted separately. Unused monthly updates do not roll over.

Best for

Local businesses, independent professionals, consultants, contractors, service providers, startups, and small teams that need a professional online presence fast.

Business benefits

A clean website, searchable business information, a contact path for leads, and technical management handled for you.

Simple launch process

- 1 Choose or connect your domain
- 2 Provide business details, logo, images, and contact information
- 3 We build, configure DNS/SSL, publish, verify, and add your site to your Google Business Profile (Maps)
- 4 Scan the QR code to save our virtual business card
